Thirty-Seven Years in Salt Lake.

After 45 years' study of Nature and her laws along special lines, my superior advantages and ability go without saving, and I unhesitatingly declare, and my unparalleled record as a successful specialist in private diseases of men backs up my claim, that more men have been cured by me of VARICOCELE, HYDRO CELE, NERVO-SEXUAL DEBIL-ITY, BLOOD POISON and RE-FLEX DISORDERS within the last 35 years than by any twenty special ists in the United States combined." This fact is self-evident and indisrutable, and, with my rates more reasonable and treatment more successful, you do wrong to experiment with concorns whose methods are heing frequently changed, and whose doctors are the scrapings together of transient and defunct concerns. NERVO-SEXUAL DEBILITY CURED

Safety, Comfort: ONE STEAMER for the ENTIRE CRUISE. Maximum Convenience. With elevator, grill room, gymnasium, dock swimming pool.

Nervo-Sexual debility is a term which I use to designate a decline of power in the general system, and also a loss of certain special functions and powers. No matter what the cause, it is always necessary in such cases to correct defects so as to supply the true elements of lost force.

This is the keynote of Nervous Debility, Seminal Weakness, Premature Decline, Lost Power and other weaknesses, all included under the sweeping term, "Nervo-Sexual Debility."

The cure of these infirmities implies the restoration of tone in every organ of the body and the renewal of the Nervo impulse force which governs and controls all organs. I solved this problem a few years ago by study along the line of chemistry of the human body, and my discovery was that of means by which I can revitalize the powers of the organism so as to cure Nervo-Sexual Debility in any of its forms or stages of development. In brief, I enable the pracess of nature to remove the waste tissue and supply new; with the elements which are added to the system go new forces that establish and maintain the natural powers of the body. Thus I cure Nervo-Sexual Debility to stay cured.

VARICOCELE AND ITS REMEDY

Scrotal Varicoccle has been described as a creeping disease. It silently steals upon its victim like a thief at night and before he is really aware of its presence great and damaging inroads are made upon his constitution. The veins surrounding the spermatic cord become enlarged and engaged with impure blood and diseased tissues. At times this condition may be accompanied with a dull, dragging pain in the small of the back, extending down into the parts, low spirits, weakness of body and brain, nervous debility, partial or complete loss of the sexual powers, and not infrequently decline of the general health. All these disagreeable symptoms soon disappear completely and forever under by Varicoccle cure, which is safe, painless and bloodless. Every clot of stagnant blood and every fiber of diseased tissue are driven from the infected parts, normal circulation is re-established throughout the pelvic region, the weakened organs become strong again and sturdy manhood is restored.

REFLEX AND ASSOCIATE DISEASES

Are those which are present and act to aggravate and favor the progress of the main malady. I never dismiss a case until cured in every particular. If the case is complicated with Hydrocele (dropsy of the scrotum), Hemorphoids, Fissure, Fistula, or any form of disease, I cure such additional complaint also, so that the cure may be per-

fect and permanent.

Reflex effects of all pelvic complaints are destructive to the tone of the Sympathetic Nerves. The debilitating effects on the general health and strength are demonstrated by such manbood sapping agents as Varicocele, stricture, Blood Poison and Discharge producing Virus. I cure both causes and effects and restore men so victimized by their own folly or by inheritance of Blood Taint. Personal and Correspondence Consultation FREE, Address

How I Restore Nerve Force

Every organ of your body is governed by a network of nerve wires. These nerves convey the power which runs the human machine. This power is called nerve force. Nerve force is nothing but electricity. The reason any organ becomes weak is because the nerves which control it lack electricity, or nerve force, the motive power of your body. This lack of negve force is shown by weakness of any kind, whether in the stomach liver, kidneys, heart or other organs,
